

SPELLBINDERS COMPATIBILITY CHART

Die cut machines cuts, die cuts and embossing plates are abundant in the market. With the help of Spellbinders company we offer you a compatibility guide to facilitate your cutting and maximize your pleasure!

You will find in this chart the information on the most reputable companies such as: Spellbinders (Wizard), Cuttlebug, QuicKutz (Revolution) Sizzix (big shot, big kick, Zip'e Mate Sizzix Original Press).

Wizard® Compatibility

The Wizard comes with all of the mats and pads needed to cut with all of the following dies:

Steel Rule Dies

1. Sizzix® Originals*
2. Zip'e Slims™
3. Compact Dies by Cross-Cuts®
4. Thick Cuts by Ellison Design™
5. Sizzix® Bigz™

Low-Profile Dies

1. Sizzlets™**
2. Thin Cuts by Ellison Design™
3. Cuttlebug™ by Provo Craft®

Chemically Etched Dies • Spellbinders Style Dies™

1. QuicKutz®
2. Zip'eCuts™
3. Zip'eSnaps™
4. SAR™ (Some Assembly Required)
5. BossKuts®

* As of January 1, 2006 the Sizzix® Cuts-n-Folds™ Dies do not seem to work consistently well with the Wizard System.

** Sizzlet™ dies that are longer than eight inches will not work with the Wizard System.

The Wizard also comes with all mats and pads needed to emboss:

- ✓ Spellbinders Die Templates™
- ✓ Any brass stencils
- ✓ The additional Charm Embossing Kit will allow:
- ✓ Embossing Charms & Findings
- ✓ Embossing with Fiskars® Texture Plates
- ✓ Embossing Cuttlebug™ Embossing Folders in the raspberry Wizard
- ✓ Flattening Bottle Caps

4. Tan Emboss Pad
5. Blue Emboss Mat

Spellbinders Universal Dies Compatibility

Spellbinders Dies are designed around the Wizard® Embossing & Die Cutting System. However, we have found that they do have limited compatibility with other systems.

Please be advised that Spellbinders two-year Warranty on Spellbinders Dies may be voided by using the dies in other systems. Spellbinders nor Scrapdeco makes no guarantees about the cutting or embossing quality of any system other than the Wizard Cutting System.

Please check the warranty on your die-cutting system before using Spellbinders Dies with it. Spellbinders/Scrapdeco is not responsible for any damage incurred by using Spellbinders Dies with other systems.

CuttleBug™ by Provocraft®

This machine is capable of cutting and embossing any Spellbinders Die. You will need Spellbinders Tan Embossing Mat to emboss in Cuttlebug™ machine.

Cutting Sandwich - (Stack from bottom up)

1. A plate
2. C plate
3. Spellbinders Die (cutting side up) that means the side with the ridges
4. Paper or cardstock
5. B plate
6. Run through Cuttlebug™ machine.

Embossing Sandwich-(Stack from bottom up)

*Remove C Plate for embossing sandwich

1. Place A plate on bottom
2. Leave die face up on A plate with die cut still in the die.
3. Place one Spellbinders Tan Embossing Mat on top of the die.
4. Use 2 or 3 pieces of cardstock to shim.

***Cautionary Note:** Using more than 3 pieces of cardstock to shim Cuttlebug Embossing sandwich will result in B Plate breakage. When using Spellbinders Edgeabilities card making dies, shim with only 2 pieces of card stock.

5. Place two acrylic B plates on top of sandwich and run thru Cuttlebug machine to emboss Spellbinders die cuts.
6. Turn die over and use like a stencil with inks and chalks for added detail.

Big Shot® by Ellison Design™ (Blue)

This machine is capable of cutting and embossing any Spellbinders Die. You will need Spellbinders White Spacer Plate and Tan Embossing Mat to cut and emboss in the Big Shot machine.

Cutting Sandwich - (Stack from bottom up)

1. Place the Big Shots™ thick white mat down first.
2. Place one Spellbinders White Spacer Plate onto the thick white mat.
3. Place Spellbinders Die, cutting side up (that would mean the side with the ridges) onto the white spacer plate.
4. Place paper over die.
5. Place two Big Shot acrylic mats over paper and roll thru the BigShot™ machine.

Embossing Sandwich-(Stack from bottom up)

1. Remove the Spellbinders Spacer Plate while leaving the die in place.
2. Place Spellbinders Tan Embossing Mat over the paper and die.
3. Shim with 3 pieces of card stock.
4. Place two Big Shot acrylic mats on top of Tan Embossing Mat and roll thru Big Shot machine.
5. Turn die over and use like a stencil with inks and chalks for added detail.

Big Shot™ (Black & Pink) by Ellison-Sizzix® and Big Shot™ for Stampin Up by Sizzix®

This machine is capable of cutting and embossing any Spellbinders Die. You will need Spellbinders two Tan Embossing Mats to cut and emboss in the Big Shot™ machine.

Cutting Sandwich - (Stack from bottom up)

1. Place large platform down first with all tabs closed.
2. Place Spellbinders die face up, (that would mean ridges or bumpy side up).
3. Place card stock on Spellbinders die.
4. Place two Big Shot™ acrylic mats on top of cardstock.
5. Roll thru Big Shot™ machine to die cut shape.

Embossing Spellbinders Dies in the Big Shot™ by Ellison-Sizzix® and Big Shot™ for Stampin'Up by Sizzix®

Embossing Sandwich-(Stack from bottom up)

1. After cutting, remove acrylic mats from cardstock and die.
2. Leave the Spellbinders die in place with paper die cut out still in the die on the multi-purpose platform.
3. Place TWO Spellbinders Tan Embossing Mats on top of die.
4. With one piece of 12x6 card stock tri-fold for a shim and place on top of the Tan Embossing Mats.
5. Place ONE Big Shot acrylic plate on top and run thru the Big Shot machine.

Big Kick™ by Sizzix®

This machine is capable of cutting and embossing any Spellbinders Die. You will need Spellbinders two Tan Embossing Mats to cut and emboss in the Big Shot™ machine.

Cutting Sandwich - (Stack from bottom up)

1. Place large platform down first with all tabs closed.

2. Place Spellbinders die face up, (that would mean ridges or bumpy side up).
3. Place card stock on Spellbinders die.
4. Place two Big Kick™ acrylic mats on top of cardstock.
5. Roll thru Big Kick™ machine to die cut shape.

Embossing Sandwich-(Stack from bottom up)

1. After cutting, remove acrylic mats from cardstock and die.
2. Leave the Spellbinders die in place with paper die cut out still in the die on the multi-purpose platform.
3. Place TWO Spellbinders Tan Embossing Mats on top of die.
4. With one piece of 12x6 card stock tri-fold for a shim and place on top of the Tan Embossing Mats.
5. Place ONE Big Kick acrylic plate on top and run thru the Big Kick machine.

Zip'eMate™ by Accucut®

This machine is capable of cutting and embossing any Spellbinders Die.

How-To Use a Spellbinders Die in the ZEM:

1. Place a Spellbinders Die on ZEM's platform, blade side up.
2. Place paper over die and cut in the same manner as with Zip'e Cuts.
3. After cut, do not remove the die or the paper from the platform.
4. Place ZEM's Embossing Foam over paper and with the ZEM's Embossing Mat, roll thru again to emboss the die-cut.

Original Sizzix® Press

Ellison® manufactures the Sizzix® System Converter. You will need to use the system converter along with Spellbinders Spacer Plate and Tan Embossing Mat (Item# W 020) to cut and emboss Spellbinders Dies.

How-To Cut Spellbinders Dies in the Sizzix® Machine:

1. Place the Sizzix® System Converter into the Sizzix® Machine.
2. On the Cutting Pad, place paper to be cut, then Spellbinders Die, ridges down.
3. Place the Spellbinders Spacer Plate (Item# W 004) over the Spellbinders Die.
4. Use a 12x6 piece of cardstock and tri fold to use as a shim. Place shim on top of Spellbinders Spacer Plate.
5. Push through Sizzix® Machine to cut.

How-To Emboss Spellbinders Dies in the Sizzix® Machine:

1. After Cutting Die in Sizzix® Machine, remove paper shim and spacer plate.
2. Leave paper die cut in the die.
3. Turn over Spellbinders Die, placing it on Sizzix® cut pad.
4. Place Spellbinders Tan Embossing Mat on top of Spellbinders Die.
5. Place paper shim on top of Tan Embossing Mat.
6. Push through Sizzix® Machine to emboss the Spellbinders Die.
7. Enjoy Spellbinders embossed die cut!

NOTE: It may take several presses to cut larger Spellbinders Dies.

Revolution™ by QuicKutz®

This machine may be used to cut and emboss Spellbinders dies.

How-To Cut with Spellbinders Dies

1. Place die onto Revolution platform (cut side up).
2. Place paper or cardstock on top of die.
3. Place acrylic cutting mat on top of die.
4. Roll thru Revolution machine.

How-To Emboss with Spellbinders Dies

1. Remove acrylic cutting mat.
2. Leave die in place with die cut still inside die.
3. Place Spellbinders tan embossing pad on top of die.
4. Place Acrylic embossing mat on top of tan pad.
5. Roll thru Revolution machine.

NOTE: Scrapdeco's has noticed that if you wish to have a better finish of your embossing, you should put a little piece of cardstock before placing the die cut on the Revolution platform.
